ONLINE 1D AND 2D CODE VERIFICATION SYSTEM

- The first ISO-compliant online barcode verifier.

- Capable of verifying up to 10 codes per second for 2D codes and up to 20 per second for 1D codes.

- Provides detailed reporting, advanced diagnostics and 100% verification of all 1D and 2D codes, without slowing down production lines.

- Includes 45-degree lighting accessory attached to the reader, ideal for codes on flat labels.

- Easy access to verification data in user-defined reports, with the ability to aggregate over time to identify trends over hours, days or even weeks.

- Integration with InvesNet software allows for user control, FDA 21CFR Part 11 or EC Annex 11 compliance, as well as importing or exporting data with other devices. data with the rest of the devices.

- Compliant with ISO standards:

    - 1D codes: ISO/IEC 15416
    - 2D codes: ISO/IEC 15415

HI SPEED
Verifies up to 10 2D codes/second and 20 1D codes/second.

REPORTS AND DIAGNOSTICS
Provides detailed reporting, advanced diagnostics and verification of all 1D and 2D codes.

INTEGRATED LIGHTING
Integrated 45 degree lighting connected to the reader, ideal for codes on flat labels
